

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

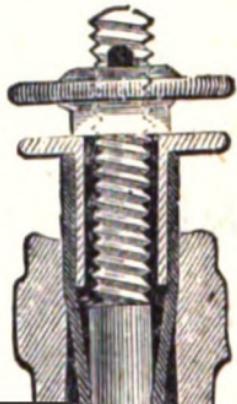

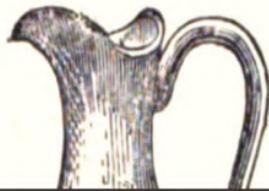

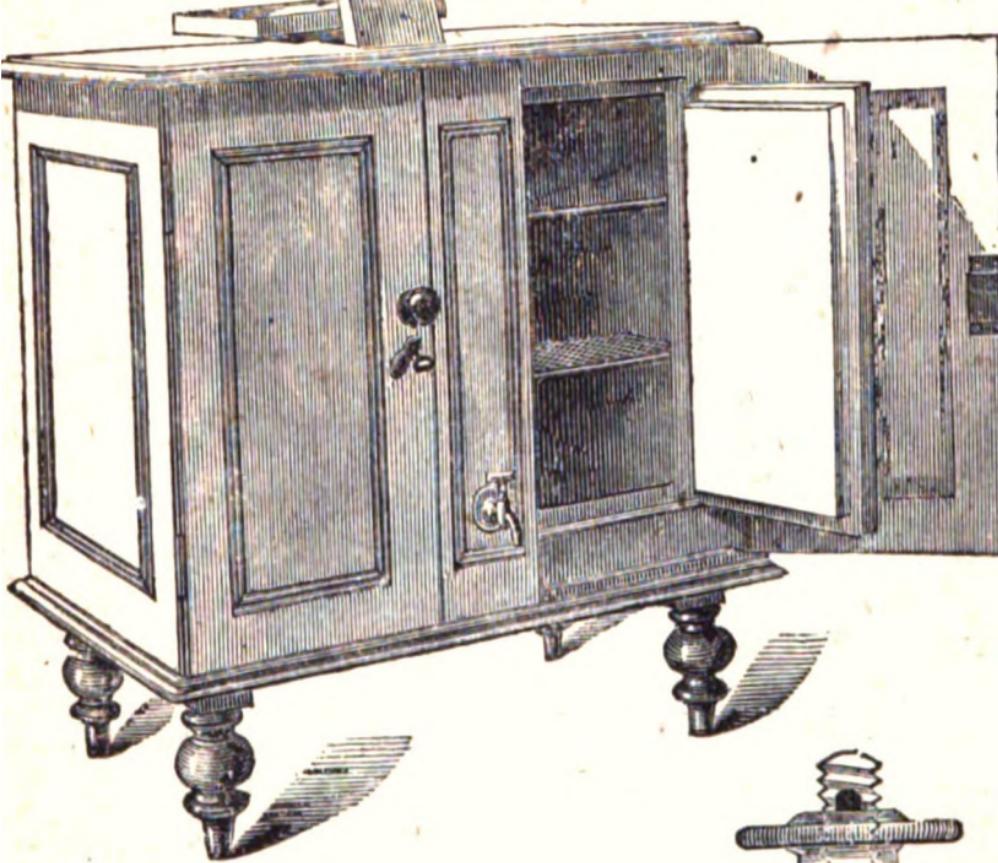

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

THE
Gentleman's Table Guide.

P R E F A C E .

LONG preface to such a volume as the present would be a sort of impertinence, and yet to publish it without some introduction would be like serving a dinner without a *menu*; and, even when the repast is *à la Russe*, the guest expects some information of the wines and dishes of which it is to be composed. We have not, however, given a long account of the various details; a brief but clear reference, with distinct instructions, alone seemed to be

required. During considerable experience in the service of various festivities to persons occupying distinguished positions in society, we have been frequently reminded of the necessity for some such simple book as that which we now seek to supply.

If there be one characteristic which distinguishes Englishmen, it is a hearty hospitality which is only satisfied by presenting an abundance of good things, and the best of their kind, to those who are its objects.

There are many ladies and gentlemen who maintain a small, quiet household, where the servants are not expected to be versed in the precise method to be observed on special occasions. There are gentlemen living in chambers who have no opportunity of engaging a regular servant. There are ladies and gentlemen of refined taste who, being anxious that any festivity shall be celebrated with a well-appointed table and some *recherché* feature, like to arrange the service for themselves, and to be able

to see to their own wines, cups, and liqueurs. There are experienced butlers who, like all butlers from the time of Pharaoh, have occasionally been in difficulties in compounding seasonable drinks; and upper servants are frequently uncertain as to the exact order of serving the wines with the proper dishes.

For all these, as well as for hotel and tavern proprietors and their attendants, this book is intended.

The recipes (many of them entirely original) have already been adopted with acclamation by a number of connoisseurs whose reputation entitles them to be regarded as a committee of taste.

All the recipes have been subjected to repeated experiments, and have been collected during visits to France and Russia. The art of mixing American drinks, which is a special feature of this volume, was acquired in the United States of America, under the instruction of a celebrated professor, whose unsurpassed manipulation was

the pride successively of the St. Nicholas, the Metropolitan, and Fifth Avenue Hotels. The directions for mixing the various cups and cordials are also the result of many years' experience in the business of a wine and spirit merchant. The *menus* for each month have been written with a view to shorten the time at dinner, as suggested by H.R.H. the Prince of Wales. The order for the service of wines has been composed after long practice and careful observation in some of the best establishments and most critical *coterie*s in England.

TWO bottles of port wine, 1 do. of sherry, 1 do. of claret, 1 gill of cognac, the peel of 2 fresh lemons cut very thin. Take 1 oz. of the following spices:—Cinnamon, cloves, and allspice boiled in a pint of water until it is reduced one half; strain off, and when cold add the juice of 2 fresh lemons, sweeten to taste, flavour with 1 glass each Maraschino and curaçoa; place the ingredients imbedded in rough ice for 1 hour. Just previous to serving add 2 bottles of seltzer water and 1 of soda water, thin slices of lemon, and grated nutmeg on the top.

NOTE.—It is the ancient custom at all the civic festivities, after the grace has been said or sung, and the “Toast Master” has duly announced the names of the principal guests, for the Master or President to rise and take the loving cup, bidding them all a hearty welcome; the guest on his left rising at the same time and taking off the cover, which he holds in his right hand; he then returns the cover to its place; after they have bowed their acknowledgments to each other the cup is then passed round, each taking off the cover in his turn. The origin of one holding the cover while the other is drinking was, according to our antiquarians, to prevent any treachery such as was occasionally practised by the Ancient Britons, the right hand being employed in holding the cover instead of a dagger.

No. 17.—THE LOVING OR GRACE CUP.

lemon, rubbed off on loaf sugar, a bunch of borage, balm, or verbena; add 2 bottles of seltzer or soda water just previous to serving. Mix as No. 16.

No. 19.—CYDER CUP.

TO 1 bottle of sparkling cyder, add 1 glass of cognac, peach or orange brandy, 1 bottle of lemonade, the peel of half a fresh lemon cut thin, 3 or 4 drops of the essence of apples, 1 glass of pink Noyeau or cloves, powdered sugar or candy to taste, either sprigs of borage, balm,

Just before serving, sprinkle a small quantity of grated nutmeg on the top. Use a silver cup.

No. 21.—BEER CUP.

A great saving of time and trouble by using Rappolt's celebrated Essence of Bishop; requires the wine only to be added. See advt.

NO.T.—Fine oranges well roasted with sugar, spices, and wine, in a cup, they will make a sweet bishop when gentlefolks sup.—*After Swift.*

No. 25.—BISHOP.

HE same as No. 24, substituting good port for claret; one roasted lemon in the place of the Seville orange.

No. 26.—POPE.

HE same as No. 24; substituting Burgundy or Imperial Tokay for claret.

No. 27.—CARDINAL.

HE same as No. 24; substituting hock, champagne, or Moselle.

No. 28.—MULLED PORT OR CLARET.

MULLENE bottle of port or claret, put into a delicately clean saucepan, and made hot but not *boiled*; sweeten to taste with loaf sugar or capillaire; boil 12 cloves, a small piece of cinnamon in half a pint of water reduced to half; strain and add to the wine according to palate. Just before serving add the rind of half a fresh lemon cut thin, and grated nutmeg on the top.

No. 29.—NEGUS (PORT OR SHERRY).

NEGUS 1 bottle of good fruity port made hot allow 1 quart of boiling water, quarter of a pound of loaf sugar or 1 gill capillaire, 1 fresh lemon cut in thin slices, grated nutmeg. An excellent beverage for evening parties.

No. 30.—EGG SHERRY.

TO every pint of sherry allow 4 yolks of new laid eggs; put three quarters of the sherry into a delicately clean saucepan over a clear fire until it is on the point of boiling; meanwhile mix up the yolks with the remainder of the sherry, 1 wineglass of cherry brandy, 1 liqueur glass of Maraschino, the peel of a fresh lemon rubbed off on sugar; add the juice, and sweeten to taste with powdered sugar or candy. The whites of the eggs must be well whisked up to a stiff froth. Mix all well by pouring from one mug to another several times quickly, raising the hands higher each time; this gives a smooth, creamy appearance. Orange, cherry, cognac brandies, or kirschwasser can be used in making this drink. A small piece of cinnamon placed in the saucepan with the sherry gives a delicate flavour. Care must be taken not to boil the wine. Just before serving sprinkle a small quantity of grated nutmeg on the top. Use a silver cup.

Be careful in taking out the white speck in the eggs.

No. 30A.—HATFIELD.

TAKE 2 bottles of ginger beer, 1 wineglass of brandy, 1 do. of gin, 1 do. of Noyeau, half a pint of pure block ice, a few slices of lemon. Use straws.

NOTE.—We recommend the PISTON FREEZING MACHINE AND ICE COMPANY, Oxford Street, for Block Ice, Refrigerators, &c.

PUNCHES & LIQUEURS.

No. 31.—PUNCH & THE PROCESS.

TO make hot punch, half pint of rum, half pint brandy, quarter lb. refined sugar, 1 large fresh lemon, half teaspoonful of nutmeg, pint and a half of boiling water. Process: Rub the sugar over the lemon until it has absorbed all the yellow part of the skin; then put the sugar into a punch bowl, add the lemon juice, *free from pips*, and mix these two ingredients well together; pour over them the boiling water; stir well together; put the spirits in a metal jug, and stand it in boiling water to make hot, add the rum, brandy, and nutmeg; mix thoroughly, and the

punch will be ready to serve. It is very important in making good punch that all the ingredients are thoroughly incorporated; and, to ensure success, the process of mixing must be diligently attended to. Allow a quart for 4 persons, but the capacities of persons for this kind of beverage are generally supposed to vary considerably.

NOTE.—A clergyman is mentioned by Fielding who preferred punch to wine for the reason that the former was nowhere spoken against in Scripture. A great variety of punch can be made by substituting different wines and spirits—such as “regent punch,” made with champagne, &c. But of all the varieties for a summer drink the North American mint julep, No. 63, is the most inviting.

NO. 32.—THE UNIVERSITY PUNCH.

TAKE 6 fresh lemons, rub the rinds on a loaf sugar till you have absorbed all the yellow part, add the juice, the peel of 3 Seville oranges and the juice, a pot of red currant or guava jelly, dissolved; pour over the ingredients 1 pint of boiling water, stand the jug in a pan of boiling water, and add 1 pint cognac brandy, 1 do. old rum, 1 do. capillaire, 3 glasses of curaçoa or orange brandy, 3 do. sherry. Let the mixture stand for 20 minutes, strain off, and add 3 pints of boiling water and the peel of a lemon cut thin.

NOTE.—As the sugar is impregnated with the lemon rind scrape it off with a knife from the lumps of sugar.

No. 33.—PUNCH, ICED.

Scrape as thin as possible the rinds of 2 China oranges, of 2 fresh lemons, and 1 Seville orange, and infuse them for 1 hour in half pint of cold syrup; then add to them the juice of the fruit; make a pint of strong green tea, sweeten it well with sugar or candy, and when it is quite cold add it to the fruit and syrup, with a glass of old rum, a glass of cognac, 1 do. arrack, 1 do. of pineapple syrup, 2 bottles of champagne; pass the whole through a fine lawn sieve until it is perfectly clear; then bottle and put it into rough ice until dinner is served. Rinds and juice of 2 China oranges, 2 do. lemons, 1 Seville orange, half pint of thin syrup or capillaire, 1 pint of strong green tea, 1 glass each rum, brandy, arrack, pineapple syrup, 2 bottles of champagne, iced for 2 hours.

N.B.—Arrack is distilled from the juice of the cocoa-nut tree; also from rice. The flowers of benzone, a few grains, impart the flavour of arrack. Immense saving of time and trouble by using Rappolt's essence of punch. Refer to the advertisement.

No. 34.—PUNCH, MILK.

Scrape 20 lemons very thin, steep the same 3 days in 1 quart of old rum, add 2 quarts of brandy, the juice of 10 Seville oranges and 10 lemons, 3 quarts of water that has

been *boiled*, 3 lbs. of refined loaf sugar or candy, and two grated nutmegs, 1 pint of red currant jelly dissolved, half pint of curaçoa ; add 2 quarts of scalded milk ; cover, and let it stand 2 hours ; then clear it through a silk sieve or tammy cloth, bottle and seal. When required for use it should be iced for 1 hour before serving. The great art in mixing punch is to blend the ingredients so that nothing predominates. The peel of lemons and other fruit should be cut *very thin*, or rubbed off with lumps of sugar, to obtain the full flavour of the essential oils contained in the cells.

No. 35.—PUNCH, MILK.

TAKE a 4 gallon earthenware pitcher, *very clean*, 2 quarts of orange brandy, 2 do. old rum, 1 pint of arrack, 1 pint of strong made green tea, 1 pint of curaçoa, half pint peach brandy, juice of 24 fresh lemons, the rind of 12 cut *very thin*, 1 nutmeg grated, stick of cinnamon well bruised, 12 cloves do., 30 coriander seeds, 2 lbs. of pineapple (*sound*) sliced thin, 20 lbs. of refined sugar or candy, 4 quarts of boiling water poured over the ingredients ; stir well together with a clean wooden spoon, tie a bladder over the top of your pitcher, and let it steep undisturbed for 2 days. Boil 2 quarts of pure milk ; add this

to the other ingredients ; mix thoroughly ; in an hour afterwards filter the punch through a delicately clean silk sieve, tammy cloth, or a jelly bag. When filtered bright bottle off, seal, and cork well. Should be iced for 1 hour previous to serving.

No. 36.—BRANDY PUNCH.

TAKE 2 quarts of iced filtered water, 3 pints of cognac brandy, 1½ pint of old rum, 2 lbs. of refined loaf sugar or candy, the juice of 6 fresh lemons, 3 Tangerine oranges sliced, the peel of 1 lemon cut thin, 2 gills of pineapple syrup, 1 do. curaçoa ; add a pint of pure spring block ice. Mix well in your bowl.

For syrups and essence of punch see advts.

No. 37.—GIN PUNCH.

GIVE one quart bottle of German seltzer water, the juice of 2 lemons and half the peel of one, very thin, half a pint of gin, 2 glasses of white syrup or capillaire, 2 wineglasses of white curaçoa ; well iced.

THE APPETISER.

APPOLT'S Orange Gin, the finest tonic. Is unrivalled as a stomachic and stimulant. See advt.

No. 38.—MIXED PUNCH.

(AMERICAN.)

Cl^ESS a soda-water glass. Take 1 gill of mixed spirits—brandy, rum, and Irish whiskey; tablespoonful and a-half of powdered sugar, the peel and the juice of half a fresh lemon; fill up with shaved ice, and mix well; ornament with 2 or 3 slices of Tangerine oranges on the top. Use 2 straws to imbibe. Gin in the place of the mixed spirits, or port or sherry, is a nice change.

No. 39.—THE ALDERMAN'S PUNCH.

No. 62. MINT JULEP.

(CAPTAIN MARRYAT.)

GET into a tumbler about a dozen sprigs of young mint, upon them put a tablespoonful of white pounded sugar, and equal proportions of peach and cognac brandy, so as to fill one-third or, perhaps, a little less; then take rasped or pounded ice and fill up the tumbler; epicures rub the lips of the tumbler with a piece of lemon or pineapple, and the tumbler itself is very often encrusted outside with stalactites of ice. As the ice melts you drink or draw through 2 straws. The "Virginians" says Captain Marryat claims the merit of having invented this superb compound, but, from a passage in the "Comus" of Milton, he claims it for his own country.

No. 63.—MINT JULEP.

MISE a soda-water glass. 1 tablespoonful of powdered sugar or candy, 1 wineglass of water; mix well, and dissolve the sugar; take 3 or 4 tender sprigs of young mint, and press them well in the sugar candy and water, until the flavour of the mint is extracted; add 1 wineglass of cognac brandy, fill the glass up with rasped or shaved ice, then draw the mint and insert it in the ice, with the stems downwards, so that the leaves will be above in the shape of a bouquet; arrange a few raspberries or straw-

berries, picked, and 2 slices of orange. Shake a little of the powdered sugar or candy over the mint; it gives a frosted appearance. Insert 2 straws.

RED AND WHITE.

As a supplementary note, without which some readers might scarcely think our TABLE GUIDE was complete, we may refer to a practice which, though only occasionally adopted in this country, appears to be growing in the appreciation of *connoisseurs*, who without the ambition to be regarded as *gourmets*, are yet recognised as authorities in gastronomic art.

We allude to the service of small dinners with only a few *recherché* dishes, where wine of the same character is alone provided throughout: wine in accordance with the viands, and without any abrupt transition from one description of vintage to another. To speak in general terms, no admixture of Red and White Wines, or of Red and White Viands, is admitted at these little banquets; so that as Red Wines go with Red Meats and White Wines with White Meats, we may conveniently speak of them as

RED AND WHITE DINNERS.

Some of the most fastidious promoters of this elegant and satisfactory mode of serving a repast, go to the extreme length of forbidding the introduction of any but *related* wines: that is to say, wines of different growths, but the product of one district or of one wine-growing province. Such as

varieties of Red or White Burgundy, Clarets or Rhenish; and we cannot say a word against the interdiction, if only the chooser of the wines has consummate taste and has made his arrangements only after actual experiment. We cannot, however, expect that any general reader will be willing at once to adopt this plan with scientific or even artistic rigour, and so we shall do no more than indicate one or two Red and White Dinners respectively.

The Red Dinner consists of soups made from red meat stocks or game, of beef, venison, ham, game with red flesh, and of course only the Red Wines, claret and Burgundy, with a little fine port at dessert. It is best served without fish, since the Red Wines seldom accord with fish to most palates. Red mullet, carp, salmon trout broiled, tench, or a course of dried fish, such as anchovies, cured herrings, or smoked salmon, with brown bread and butter, can be effectively introduced.

The White Dinner, of course, offers much greater variety of viands; but all Red Wines should be excluded, while no greater variety of White Wines should be permitted than Sherries, Hocks, and Moselles, unless access can be obtained to a bin of Haute Sauterne of great vintage; or of fine dry Sillery, and then it would be better to exclude the Rhenish instead of mixing.

NOTE.—We recommend the use of NEAL'S PYRO SILVER CUTLERY at all Dinners, &c., but especially when Salads, Sauces, or Acid Fruits form a portion of the Menu. See advt.

BURTON-ON-TRENT,
February, 1855.

WE beg respectfully to call your attention to the annexed fac-simile of a Label we have adopted as the distinguishing mark of the identity of our PALE ALE.

The very general imitation of our old Label for *all sorts* of Pale Ale has rather assisted than prevented deception. We trust the one we have now adopted—the figure of which belongs to us as our Trade Mark—will be a means of securing us and the public against the fraud that has been so long and so generally complained of.

We are, SIR,
Your most obedient Servants,
BASS & CO.
